

STUDY TOUR

PEDAGOGICAL AND ACADEMIC
OBJECTIVES OF THE WEEK

job

International
Osteopathic
Medical School

جامعة عجمان
AJMAN UNIVERSITY

This first Study Tour will allow students, interns and Doctors of Ajman University College of Dentistry to :

- Discover the facilities and identity of an osteopathic training institution ;
- To understand the close links between the cranio-mandibular approach in osteopathy and dentistry ;
- To participate in clinical consultations supervised by experienced teachers ;
- Learn how to perform temporomandibular dysfunction treatment techniques and cranial osteopathy techniques that are very useful in the practice of dental surgery, orthodontics and occlusodontia ;
- To participate in a professional conference on bruxism and an interdisciplinary approach ;
- To visit hospital services related to IOB Institution ;
- To participate in the operation of the dissection laboratory.

The main objective is a total immersion of students in IOB and to promote academic and pedagogical exchanges.
